

I am a proud native of Huron County, born at Fisher-Titus in Norwalk, OH and raised in Wakeman Township. I grew up on my family's small hobby farm, which instilled in me the values of hard work and resilience from an early age. My father is a retired union car hauler, and my mother is a stay-at-home mom. My parents laid the foundation for the strong family bonds that continue to shape my life. I am currently residing in New London Township with my two amazing boys. My commitment to family echoes the warmth and closeness I experienced in my upbringing.

I pursued my education at Western Reserve and Ehope Career Center, graduating with a certificate in Business and Marketing. My professional journey unfolded within the Huron County Auditor's Office, where I have dedicated two decades to public service. My career began humbly as a part-time employee, navigating the intricacies of the work release program at Ehope Career Center during my junior summer. My commitment to accuracy, attention to detail, and passion for my work quickly set me apart. It wasn't long before my contributions were recognized and propelled me into a full-time position within the Accounting Department and subsequently into the Data Processing Department, where I am currently employed. In my spare time I am one of the founding members of the WR Trap Shooting Sports Club that started in May of 2022 at Western Reserve High School, and I currently sit as the club's treasurer.

Goals

My campaign for the Huron County Treasurer's Office reflects a commitment to responsible financial management, community engagement, and overall improvement in the County Treasurer's office.

- Financial transparency and accountability to ensure transparency in financial matters and advocate for responsible budgeting and fiscal policies to maintain the financial health of Huron County.
- Continue to foster strong partnerships with other county offices, local government entities, and community organizations to work toward shared initiatives that benefit the entire county.
- Develop and implement sound financial planning strategies to maximize county funds and investments and explore responsible investment opportunities that align with the county's financial goals.
- Enhance accessibility to the Treasurer's Office through digital platforms and in-person services. Explore technology solutions to make tax payment and information more accessible to residents. Continue to provide excellent customer service to residents of Huron County.
- Continued professional growth to stay informed about changes in the financial regulations and best practices through ongoing professional development.
